Objective

Computer Science post graduate with experience as a Software QA Engineer Intern, willing to utilize my skills to contribute in developing innovative software solutions and grow my expertise in software application development and testing. Aiming to work on exciting projects and overcome the issues faced in development and testing processes to optimize the workflow of applications. I am enthusiastic about software testing and backend development.

Experience

Software QA Engineer Intern - Easyreach Solutions Pvt. Ltd. - *Pune, Maharashtra* *(Nov 2024 – Nov 2025)*

- Collaborated on software and IoT-based solutions with a focus on BLE (Bluetooth Low Energy) technologies used for asset tracking and real-time personnel monitoring.
- Conducted end-to-end testing, functional testing, database testing of BLE-based IoT application, ensuring seamless integration between hardware and software components.
- Utilized tools like MQTT and PuTTY to monitor real-time data transmission from BLE beacons, analyzing system behavior and log outputs.
- Established and managed MQTT servers using Linux command-line for IoT data communication.
- Performed UI/UX testing for web interfaces designed to visualize BLE beacon data and live tracking scenarios.
- Established connection to the database and executed SQL queries in MySQL to verify proper data capture and storage from BLE sensors.
- Used Postman to test RESTful API endpoints facilitating communication between client-side UI and backend servers.
- Developed comprehensive test suites, wrote and executed test cases, and ensured complete test coverage across platforms using Test Link.
- Reported, tracked, and managed bugs using JIRA and MantisBT; collaborated with developers to resolve issues before deployments.
- Contributed to QA processes for major clients such as: ***Coca-Cola, Indian Navy, Vodafone-Idea & Airtel***

Skills

Core Java, OOPs, Hibernate, Spring Boot, JPA, GIT, CI/CD, SQL, PostgreSQL, Quality Assurance, UI/UX Testing, JDBC, JSON, PuTTY, Test Link, TestNG, Ubuntu Linux, Bash, MQTT, Selenium, Postman, Swagger, SDLC/STLC, Agile, JIRA, Maven, MantisBT, Team Work, Critical Thinking, Excellent Communication.

Educational Qualifications

- M.Sc (Computer Science) - Modern College of Arts, Science and Commerce (2024)
- B.Sc (Computer Science) - Modern College of Arts, Science and Commerce (2022)
- H.S.C (Science) - M.T Balwadkar Junior College (2018)
- S.S.C - P E Society's N.C.L English Medium School (2016)

Projects

1.BLE Asset-Tracker - *(Easyreach Solutions)*

In this project, I contributed in the end-to-end testing of BLE Asset Tracking web application. I created test suites, test cases, performed WB, GB, BB, functional, non-functional, smoke, sanity and regression testing methods. I also monitored server logs in real-time by utilizing tools like PuTTY and MQTT-EX. Validated the data sent and stored in the MySQL database.

2.Voter ID-Portal - *(Modern College of Arts, Science and Commerce)*

In this project, I contributed to the development of the website using HTML, CSS for front-end, Java (Spring Boot) for back-end and MySQL for database. I implemented the Voter and Admin modules and tested the back-end functionality. Also helped to enhance a feature which generated a Voter ID in PDF format of the user whose data is valid and stored in the database.

Certifications

- Software Testing - Udemy
- Python Programming - Ethan's Tech
- Core Java, Advanced Java, SQL - QSpiders
- Salesforce Admin and Developer - Seven Mentor

Achievements

- Participated in social work.
- Participated in blind coding competition at college level.
- Participated in Think Tank, business pitch competition at inter-collegiate level.
